Codax Embedded Terminal (CET-ETH)
Quick Start Guide

This Quick Start Guide outlines the minimum initial steps required to get the Codax Embedded Terminal configured and ready to issue tickets. This guide should be used in conjunction with the user manual for Codax Embedded Terminal – CET-ETH-UM-ENG-080321-1.06.

Step 1 Cold Start

```
SYSTEM NOT CONFIGURED
COLD START REQUIRED
```

[☰ MENU] → *Admin Menu* → *Command* → *Password 32923*

Cold Start is the process used to configure the Ticket Terminal to match the physical site installation in terms of services and programs available. *See CET user manual section 4.3 - COLD START*

Step 2 System Setup

```
PSD Codax
                 12:56
```

[☰ MENU] → *Admin Menu* → *Setup* → *Password 12345*

The System Setup is defined by a series of setup options available from the Setup menu. These setup options fully customise the Ticket Terminal's operation and ticket details. The list below shows the minimum setup requirement. *See CET user manual section – 4.5 – SET-UP MENU FUNCTIONS:*

- Set Time and Date – *Section 4.5.1 - TIME AND DATE*
- Set Ticket Validity – *Section 4.5.2 - VALIDITY*
- Ethernet Setup – *Section 4.5.5 - ETHERNET*

Step 3 Issue Wash Tickets

```
PSD Codax
                 12:56
```

Tickets are only available from the POS using the Ethernet Protocol.

Refer to the Codax Embedded Terminal Operators Manual for further features and options.
